
COUNTERTOP MACHINES

1) SWK-125 Countertop Hole Cutting Machine

Picture

General Introduction

This machine is specially designed to cut Ellipse or Circle hole in kitchen & bathroom stone countertop, with the features of labor-saving, high efficiency, excellent cutting quality, computerization.

The cutting head can move by itself under the guide of model and automatically return to its former place after finish cutting. The blade rotation speed are controllable and the cutting depth is also adjustable. This machine is preferable for the mass production of countertop .

Main Technical Data

Main motor power	2.02KW 1phase
Size of hole available:	$0 < a < b \leq 290\text{mm}$ (for Ellipse Hole) $0 < r \leq 290\text{mm}$ (for Circle Hole)
Worktable dimension	1200x780mm(L*W)
Maximum height between the blade axis center line and worktable space	340mm
Workable blade:	$\Phi 105\text{-}\Phi 125\text{mm}$ Diamond Concave Blade
Blade rotation speed	6400rpm
Blade axis turning degree	25°
Net weight	Approx.1500kgs
Overall Dimension	1830x1230x1200mm(H*W*L)

Unit Price of MACHINE (FOB Shanghai):

£6150.00/unit (with wood package) delivery to UK anywhere Inc vat and gaunttee

The price of Dia. 125mm Diamond Concave Blade

£59.00/pc for the Sintered Type

£32.00/pc for the Electroplated Type

The Sintered Concave blade is suitable for fabricating marble & granite countertop, while the Electroplated is preferable for marble fabrication.

2) SWQ-4 Countertop Profiling Machine

Picture

General Introduction

This machine is designed to profile and grind & polish the Ellipse or Circle hole in kitchen & bathroom stone countertop. Also it can be used to profile, grind and polish the inner & outer edge of countertop slab. It's a good partner of SWK-125 machine. Use this machine processing edge of stone after SWK-125 cutting hole.

Main Technical Data

Main motor power	2.2KW
------------------	-------

Range of Arm	2000x1500mm
Workable diameter of profile wheel	<200mm
Arbor size of profile wheel	30mm
Rotation speed of wheel	Double Speed 3200rpm(Fast);1600rpm(Slow)
Overall Dimension	1800x1500x1500mm(H*W*L)

Unit Price of MACHINE:

£3450.00/unit (with wood package) delivery to dock UK No vat or guarantee

This machine can use same diamond tools as SYM-7BH profile machine, for profiling and polishing of stone.

Guarentee period half year (6months), provide free replacement Parts during the guarantee period, if quality issues of the commodity is not impersonal factors, but this service only limted in UK, we can via email or telephone to solve problems, if customer ask for arrange technicians come to fix it, then, flights charges and 3stars up hotel and normal board must provided by buyer, When guarantee period expires, we will only charge for the cost of component replacement, At the same time acceptance arrives within 30 days, if the client is dissatisfactory, can termless return money, but buyer charges all fees and freight return to UK.
